

Technical Feature of
Midea Dehumidifier K Series

April 2013

➤ Panel

➤ Auto-defrosting function

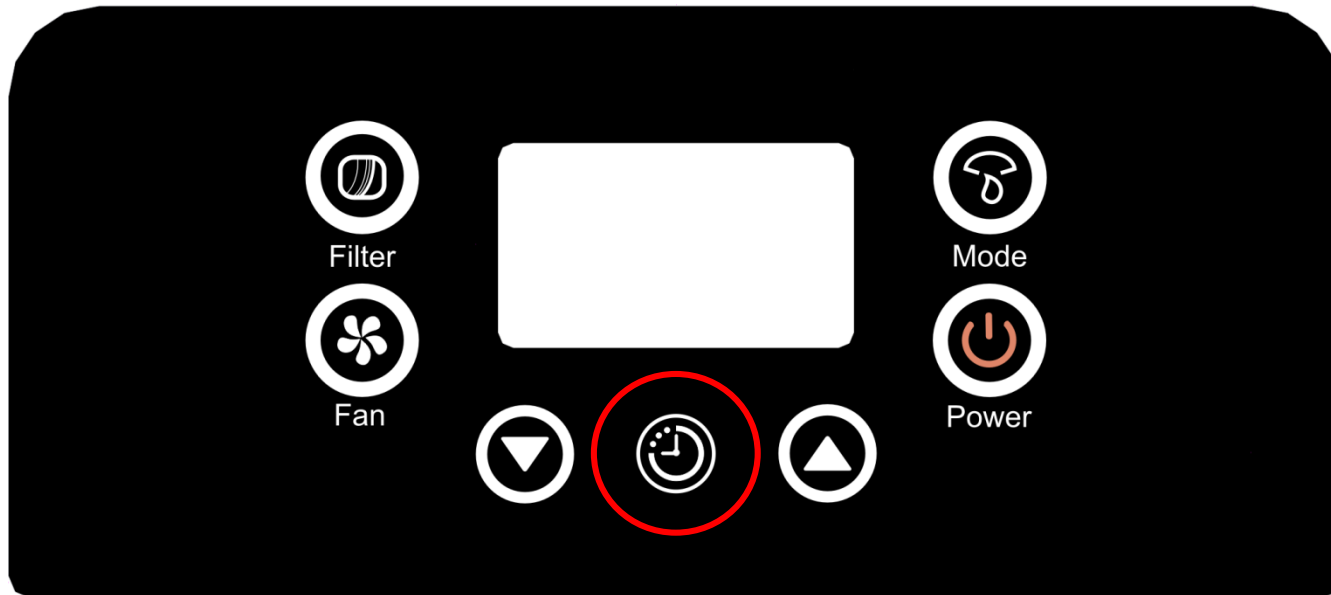

Prevent evaporator from freezing, prolong product life and improve energy saving.

➤ Auto-Restart

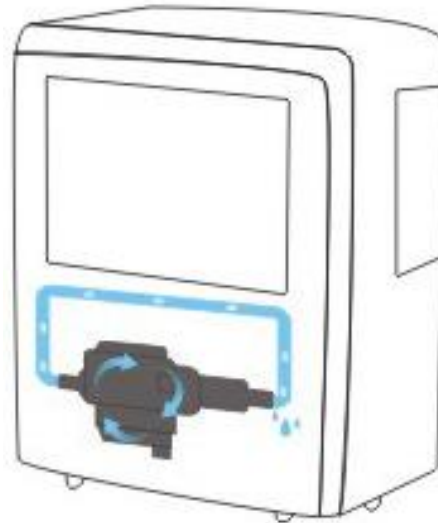

If the Dehumidifier shuts off unexpectedly due to the power off, it will restart to work under the previous setting mode automatically when the power resumes.

➤ Time on /off

Timer On and Timer Off can be set at the same time when the unit is running or on standby.

➤ Drain pump(optional)

With the pump inside, the dehumidifier can be used in cellar, storehouse or office, and free of pouring out the water by hand.
